Education

BENNETT UNIVERSITY — B.Tech in Computer Science and Engineering CGPA: 9.22/10 Aug 2022 – May 2026

Technical Skills

- **Programming Languages:** C++, Python, JavaScript, Bash, C#.
- **Frontend:** React.js, HTML, CSS, Tailwind CSS, Redux Toolkit.
- **Backend:** Node.js, Express.js, .NET. **Databases & ORMs:** MongoDB, MS SQL Server, Mongoose, Sequelize.
- **Cloud & DevOps:** AWS EC2, Nginx, PM2, Cloudflare, IIS, TFS. **Tools:** Git, Postman, Parcel, Jest.
- **Core CS:** DSA, OOP, OS, Computer Networks, DBMS. **Cybersecurity:** Burp Suite, Nmap, Metasploit.

Internship Experience

Full Stack Intern, Futuresoft (India) Pvt. Ltd Sep 2025 – Present

Multi-Branch Inventory Management System

- The company's two branches (Delhi & Noida) tracked inventory, sales, and stock entirely on paper — causing data loss, miscommunication, and inefficient restocking.
- Architected a full-stack solution from scratch using **React.js, Node.js, Express.js, MS SQL Server, Sequelize ORM, JWT auth, RBAC (Admin, User, Viewer)**, deployed on IIS with TFS.
- Delivered **Inventory Dashboard** (real-time SKU management) and **Sales Dashboard** (cost tracking, wastage logs, restocking alerts) across **2 branches, 500+ SKUs** — reducing manual effort by **70%**.

Client Billing & Subscription Monitor

- No internal system existed to track recurring payments (hosting, CDN, DevOps) across **20+ active clients** — causing missed deadlines and untracked charges.
- Built from scratch using **React.js, Node.js, Express.js, MS SQL Server, Sequelize ORM, RBAC (Admin, Accountant, PM, Client)**, and **Microsoft Graph API** for automated emails; deployed on IIS with TFS.
- Centralized **50+ subscriptions** with role-based dashboards and automated alerts to clients, PMs, and directors — reducing missed payment incidents by **90%**.

Cyber Security Intern, Antihak AI Cyber Security Pvt. Ltd Nov 2024 – Feb 2025

[Certificate](#)

- Performed VAPT on **5+ client systems** using **Burp Suite, Nmap, and Metasploit**; executed network scanning, service enumeration, exploit validation, and security misconfiguration analysis.
- Generated **OWASP-aligned** vulnerability assessment reports identifying **20+ critical vulnerabilities** for client delivery.

Projects

DevTinder – Full Stack Developer Networking Platform [Frontend](#) | [Backend](#) | [Live](#)

- Built using **React.js, Node.js, Express.js**, and **MongoDB** enabling swipe/request-based matching for **100+ developer profiles**; designed **12+ REST APIs** with **JWT-based security**.
- Improved performance via **MongoDB indexing, pagination, and query optimization** — reducing feed latency by **40%**; deployed on **AWS EC2** with **Nginx, PM2, and Cloudflare DNS** — achieving **99% uptime**.

ClickCart – Full Stack E-Commerce Platform

- Built using **React.js, Node.js, Express.js**, and **MS SQL Server** supporting **100+ products**; implemented cart, checkout, order placement, and order history workflows — reducing purchase flow to **under 3 steps**.
- Built **Admin Panel** with **CRUD, pagination, search** for **50+ listings**; integrated **JWT RBAC** securing **100%** of API endpoints across Admin and Customer modules.

Food Ordering Web App [GitHub Repo](#)

- Built with **React.js** and **Redux Toolkit** featuring **100+ restaurant listings**, Shimmer UI, search, filtering, and cart — reducing search-to-order flow to **under 4 clicks**; achieved **90%+ test coverage** with **Jest** and **30% faster builds** via **Parcel**.

Certifications

Certified Ethical Hacker (CEHv12) — Score: 92% [Certificate](#)

Security, Compliance, and Identity Fundamentals [Certificate](#)

Achievements

- Co-authored "Web Application Security Assessment Techniques: Current Trends and Future Directions" in **Intelligent Computing and Communication Techniques**. [Publication Page](#)
- Solved **250+ LeetCode problems** demonstrating strong algorithmic skills. [Profile](#)
